CAREER OBJECTIVE

BTech student in Artificial Intelligence and Data Science with strong foundations in Python SQL Data Structures and Object Oriented Programming. Skilled in data analysis using Pandas NumPy and Matplotlib with experience in building Python based data driven applications. Seeking an AI ML Engineer internship opportunity at PropVivo to contribute to intelligent product solutions and real world data driven systems.

EDUCATION

JECRC Foundation, Jaipur

2023 – 2027

Bachelor of Technology in Artificial Intelligence & Data Science

CGPA: 8.69

SKILLS

- **Programming Languages:** Python, C++, SQL.
- **Databases:** MySQL, SQLite.
- **Core Subjects:** Data Structures and Algorithms, Object Oriented Programming, DBMS, Operating Systems, Computer Networks.
- **Tools:** Git, GitHub, Jupyter Notebook, VS Code, Tkinter, LeetCode.
- **Soft Skills:** Problem Solving, Communication, Teamwork, Leadership.

INTERNSHIP

CEI (Celebal Excellence Intern) | Celebal Technologies

May 2026 to Present

- Completed 5 modules in Python statistics machine learning deep learning and RNN concepts.
- Applied Python NumPy and Pandas for data cleaning exploratory data analysis encoding feature scaling.
- Studied regression classification clustering and model evaluation workflows through guided assignments.
- Practicing hands on data science exercises and preparing for real world project work under mentorship.

Python Programming Intern | INTERNSHALA

Jul 2024 – Aug 2024

- Built 3 Python desktop applications using Tkinter for user interface development.
- Designed modular application logic using Object Oriented Programming principles.
- Implemented SQLite based storage and retrieval operations for application data.
- Tested and debugged features to improve application reliability.

PROJECTS

Movie Recommendation System | *Python, Pandas, NumPy, Tkinter*

- Built a content based movie recommendation system using Python.
- Analyzed more than 1000 movie records using Pandas and NumPy.
- Implemented similarity based recommendation logic for personalized movie suggestions.
- Created an interactive Tkinter interface for user input and recommendation display.

Sales Data Analysis Dashboard | *Python, Pandas, Matplotlib, Tkinter*

- Created an interactive sales analytics dashboard using Python.
- Built KPI tracking and data visualization features for sales performance analysis.
- Cleaned and analyzed sales datasets using Pandas.
- Designed a Tkinter interface for exploring business data.

CODING PROFILE

- Solved 150+ coding problems on LeetCode and coding platforms.
- Strong problem-solving skills using Python and C++.
- Practiced DSA problems focused on arrays, strings, and OOP concepts.

LEADERSHIP & ACTIVITIES

Zarurat Club (College Social Initiative) Member → Head

- Promoted to leadership role based on contribution.
- Organized and conducted educational sessions for underprivileged children.
- Developed leadership, teamwork, and communication skills.
